

Cloud-Based Surveillance

Value – we offer comprehensive cloud-based video surveillance solutions at an affordable price. Packages starting at \$70 a month.

Support – tradition of providing uncompromising client services focused on addressing all our clients' needs.

Dependable – our company is locally owned and operated, fast response time for service with a personal touch, unlike the large national providers.

Cloud-Based Surveillance System Benefits:

- No on-site DVR or servers, video footage stored off-site
- Cyber secure "system", no specialized network/firewall rules required
- Ongoing remote maintenance & feature updates, at no additional costs
- Easy access with superior mobile app experience, over WIFI or cellular networks
- Scalable and upgradeable, easily commit to upgrades and scale your system

Interactive Security Technologies is a commercial and residential security solutions integration company serving Arizona.
